Stainless steel mug with USB Heatfunction

Product number: 6261307

Discover our high-quality stainless steel mug with an innovative USB connection that not only keeps your drinks at a pleasant temperature but also adds style and convenience for on-the-go or the workplace. This mug is the optimal solution to savor hot drinks for an extended period, whether during your car ride or a busy day at work. We offer you the opportunity to showcase your logo on the left side of the handle through laser engraving, perfectly highlighting your brand.

Product Highlights:

- USB Connection for Temperature Maintenance:** Our stainless steel mug features a convenient USB connection, allowing you to maintain your drink at the desired temperature. Simply connect it to a power source like your car or computer and enjoy hot drinks at your leisure.
- Capacity of 400 ml:** This mug provides ample space for 400 ml of your favorite beverages, be it coffee, tea, soup, or other liquids. The compact size fits perfectly in most cup holders, both in the car and at the desk.
- Durable Stainless Steel:** The mug is crafted from high-quality stainless steel, ensuring not only durability but also a modern appearance and easy cleaning.
- Perfect for On-the-Go and Workplace:** Whether you're commuting to work or stationed in your office, this mug is the ideal companion to have your drinks readily available and enjoy them at the desired temperature.
- Print option:** Your logo will be engraved on the left side of the handle using laser engraving. This adds a personal touch to the mug and ensures that your brand is always in the spotlight.
